**NISP**  <sup>TM</sup>  
NATIONAL INDUSTRIAL SYMBIOSIS PROGRAMME

[www.nisp.org.uk](http://www.nisp.org.uk)

Supported by

The Chartered Institution  
of Wastes Management

## WHAT IS NISP?

The National Industrial Symbiosis Programme (NISP) is a **FREE** business opportunity programme funded by Defra.

Through NISP, companies can achieve substantial cost savings, generate sales from new markets and contribute towards creating an environmentally sustainable economy. What makes NISP different to other resource efficiency initiatives is that it deals with ALL TYPES OF RESOURCE – materials, energy, water AND supports the sharing of assets, logistics and expertise.

## WHAT IS THIS EVENT ABOUT?

The Construction Synergy Workshop aims to bring together organisations involved in the Construction industry in a structured practical forum whereby companies can network, share ideas, opportunities and exchange resources. The event is the perfect opportunity for solution providers to meet with potential customers.

The event will provide an opportunity to discuss issues currently affecting the construction sector, and will help attending organisations improve resource flows and improve business efficiency.

## NISP ACHIEVEMENTS

Since April 2005 to March 2008, the Programme has generated £123 million in additional industry sales for its members, as well as made industry cost savings totalling more than £103 million. In addition, it has also reduced the UK's industrial carbon emissions by over 4.4 million tonnes and diverted business waste from landfill by 3.4 million tonnes.
