

IS TRAINING PART OF YOUR RECESSION STRATEGY?

ConstructionSkills
North West Roadshow

18TH MAY 2009, HALLIWELL JONES STADIUM, WARRINGTON

Building the North West

Downturn doesn't mean down tools. Equip your team for success in a tougher market.

The right skilled people are crucial to you winning more contracts now and ultimately will make sure that your business is fit for purpose in the future.

ConstructionSkills offers impartial advice and support. Many registered companies are taking advantage of the help available. Are you one of them?

If not, come to the ConstructionSkills North West Roadshow on the 18th May. We'll take you through a range of helpful services that are available, including the grants available to registered companies.

In an interactive workshop, you will hear about opportunities to improve your business. The programme content will cover;

- How we can support you to improve the

skills of your staff and create a more flexible workforce.

- The benefits of taking on an apprentice.
- CSCS and CPCS routes to ensure that your staff have the relevant requirements to get on site.
- Construction specific courses, including Health & Safety.
- Routes to technical/professional qualifications.
- Grants and funding available to support you with the above.

This is a regional showcase to demonstrate how ConstructionSkills can help your business. If you wish to talk to your local Company Development Advisor before booking, please contact either Yan Cockayne on 07740-067224 or Julie Lawrenson on 07876-130558.

The Roadshow will be introduced by Trevor Jee, Ex Managing Director, West Region, Keepmoat Regeneration Ltd & Keepmoat Homes Ltd.
