

Offshore Wind: The Business Opportunity

Date
Thursday
9th December
2010

The offshore wind sector is set to grow significantly in scale. The opportunities cover a broad range of technologies and services from environmental assessment to heavy fabrication. Liverpool City Region has a strong local supply chain and skills base and this event will provide an up to date briefing on the scale of opportunities, industry requirements and support available.

Time
09:00 - 13:00

This joint Envirolink Northwest and The Mersey Partnership event is free for delegates to attend.

Venue
The Foresight Centre
Liverpool
L69 3GL
