

North West and North Wales Offshore Wind Supply Chain Event

Date
Tuesday 8th
February 2011

The offshore wind sector is showing significant growth. Engaging the UK supply chain will be critical in enabling the UK to deliver ambitious renewable energy targets. This event is part of a national series of events, supported by The Crown Estate and Government.

Time
08:30 - 17:00

This event is delivered by Envirolink Northwest and The Mersey Partnership; with support from The Manufacturing Advisory Service North West (MAS).

Venue
The Floral Pavilion
New Brighton
Merseyside
CH45 2JS

Workshop programme

The afternoon will provide a series of workshops running concurrently to allow delegates to participate in three of the four topic areas. The workshops are designed to allow key companies operating at Tier 1 and Tier 2 to outline requirements and procurement in four principle areas.

Workshop Topics:

Turbines and Installation: Tom Findlay, RE Power , Thomas Arensbach, A2SEA LTD and Michael Scheff, Mitsubishi Power Systems Europe

Substations, Transmission and Distribution: Stephen Black, Siemens and Rafael Bonchang, Alstom

Operations, Maintenance and Logistics: Elias Dencker, Dong Energy and Jamie Rowlands, Siemens

Cabling and Sub-Sea Services: John Price, JDR Cables.

13:30 - 14:15	Workshop Session 1
14:15 - 15:00	Workshop Session 2
15:00 - 15:30	Refreshments
15:30 - 16:15	Workshop Session 3
16:15 - 17:00	Refreshments, Networking and Close

Exhibition space and sponsorship opportunities

Limited exhibition spaces are available from £550 plus VAT.

For further sponsorship opportunities please contact Dan Hughes on 01925 813 200 or email: d.hughes@envirolinknorthwest.co.uk

Delegate registration

Delegate places are FREE. When registering as a delegate for this event please clearly state which three workshops you would like to attend in order of preference in the “Request Details” section. Registration can be completed below:
