A Broadband Connection Voucher is a grant of up to £3,000 for small or medium sized businesses to upgrade to a faster, more reliable internet connection.

About the broadband grant

The grant pays for the installation costs – that is the capital and equipment costs of upgrading your broadband connection. You pay any VAT charged and the monthly line rental to your service provider. Monthly costs vary depending on the package, but a quarter of businesses pay £40 per month or less.

If you aren't sure what kind of broadband connection you should choose for your upgrade, check the guide on our website which explains the options to find out what's best for your business.

Who can apply?

To apply for a broadband grant you must be a small or medium sized business, or a registered charity, social enterprise or sole trader.

Benefits for SMEs

With faster, better broadband, you can:

- ▶ **Grow and access new markets** through better communication with customers
- ▶ **Increase security** through fast secure back-up of data
- ▶ **Increase productivity** while attracting and retaining the best staff
- ▶ **Improve customer service** by sending or uploading large files faster
- ▶ **Increase your bottom line** by improving your customer satisfaction
- ▶ **Future proof your business** for the digital challenges of tomorrow

**Offer closes
31st March 2016**

apply for your broadband grant now.
